PARIS

TIMELESS AND CONTEMPORARY SHAPED MOSAICS

In terms of design, the Paris collection is the most versatile one in our range. This collection includes mosaics with classic, timeless shapes such as the metrotile and the lantern shape.

But the Paris collections also carries modern and special shapes, like tiles with the shape of a picket, pinwheel and 3D cube. In terms of colour, this collection is a lot more sober, with mostly black and white shades.

The Paris collection is made of glazed porcelain and includes various series. Each series is characterized by a special shape, with often only black and white tiles in both a matt or glossy finish.

The Paris Metro and Paris Picket series are the exception to this, since these series include more colours, like light pink, taupe and grey or green.

PARIS METRO TILES

GLOSSY METRO TILES, MADE OF GLAZED PORCELAIN.

This elongated brick, or subway tile mosaic, is very suitable as a wall tile, for example in the bathroom or kitchen. Metrotiles are timeless, versatile and mesh well with all sorts of decorating styles. This tile creates a clean, classic look that blends well with modern, traditional, farmhouse and cottage aesthetics.

Metro PAME058 Taupe Glossy 45x95mm

HEXAGON AS NEVER SEEN BEFORE!

The hexagon trend is here to stay. Hexagon mosaics have been popular for quite some time now but remain loved by customers all over the world. We like to follow those interior trends, but also aim to put our own stamp to them. We therefore added the Picket series to our range: hexagon mosaics, but different.

The Picket series are part of our Paris collection. Since contemporary and striking shapes characterise this collection, the playful hexagon mosaics of the Picket series fit in perfectly. The mosaics are available in four colours: pink, green-grey, blue, and white. All mosaics have a glossy finish, which is very maintenance friendly.

The Picket mosaics are very suitable as wall tile. In bathrooms, hallways, or as kitchen backsplash, for example. A remarkable detail is that these mosaics can be applied horizontally as well as vertically, with both ways ensuring a completely different look!

About us

LET'S MAKE SOMETHING BEAUTIFUL

For over 25 years UCI Union Ceramics International B.V. has been a specialist in the production and distribution of glass- and ceramic mosaic products.

The collections we offer are produced according to our specifications and high standards.

Under the registered brand name TMF® (The Mosaic Factory) our collection is sold in over 30 countries worldwide.

UCI has its head office, showroom and European warehouse in Nistelrode, the Netherlands and a Quality and Sourcing office in Singapore.

Mission: Making projects more beautiful and distinctive with affordable high quality mosaics.

Vision: We want to make our customers successful by following the market trends and offer them the right assortment in shape, colour and materials. UCI delivers exclusively through selected dealers.
