**CE** The CE mark indicates that the product is conforming and satisfies all the community directives that are applicable; it guarantees the right of this product to be freely commercialized in all the states members of the European Union.

 Insulation degree III: This symbol identifies appliances that operate at low voltages (12 Volts, for example) and are therefore connected to extra safety low voltage power circuits. In this case too, the appliance does not need to be connected to the mains.

 Protection degree F: Appliances bearing the F symbol may be installed directly on normally inflammable surfaces. Normally inflammable surfaces are defined as surfaces made from materials such as wood or wood derivatives and which are more than 2 mm thick.

**IP44** Protection degree IP44: Protected against solid objects greater than 1 mm. Protected against splashing water.
